Mileage/Year Dependence

Vehicle Specification

Junk / Salvage / Insurance Records

This section lists junk, salvage, and insurance records (if any).

Source: NMVTIS

Explanatory Note:

If VIN has a record in the **Junk/Salvage or Insurance** information then the business that submitted the VIN to NMVTIS deemed the vehicle to be either a junk, salvage, or in the case of an insurer, a total loss. The information in the DISPOSITION field in the **Junk/Salvage** section denotes what has happened to the VIN (i.e., vehicle) since it came into the possession of the business.

Vehicle Specification

Accident Check

This section lists accident records from available independent sources.

Source: VinAudit

Loading...

Explanatory Note:

The accident records identifies vehicle accidents — both minor and major — typically in cases where there is a police report associated with the accident event. Note that, like other vehicle history providers, VinAudit aggregates accidents from a combination of police departments, state agencies, and industry sources, and a lack of a positive match does not necessarily mean the vehicle has had an accident-free history.

Theft check

Theft Check

This section lists active theft and theft recovery records for this VIN.

Source: VinAudit

Loading...

Explanatory Note:

Theft records indicate whether a vehicle has been reported stolen or recovered by law enforcement agencies or insurance companies. An active theft record means the vehicle is currently reported as stolen, while a theft recovery record indicates it was previously stolen and later found.
